2. Retirement Affairs Division Requests "Early Warning" on any Unscheduled Voluntary Retirements During Remainder of this Year: Representatives of RAD made a point of contacting personnel officers or career management officers throughout the directorates to enlist their services in giving "early warning" of any employees who indicate they might request voluntary retirement at this time. With the COLI now a fact, and the Daniels-McGee Bill becoming law a strong likelihood, we have been quite busy working on dates of retirement for persons scheduled to leave during the remainder of the year (some of whom are in the field). We could, therefore, benefit from the earliest advance notice of persons who might voluntarily opt for retirement during this period.
